

URGENT CLEARANCE

We have 64ft of card racks which are versatile with internal storage for stock other than cards and drawers for cards.

There is complete removeable slate line with uprights so there is a combination of two ways of displaying.

The colour is grey with a pink strapline.

Buying new will entail an expense of around £40K with shop fitting but we are looking for around £5K; giving you a chance to update without forking out a fortune.
